

THE PEDIATRIC TRAUMA COURSE THAT STARTS WHERE THE OTHER COURSES END

FOR ORGANIZATIONS

**A COURSE FOR
PEDIATRIC NURSES
ACROSS THE TRAUMA
SPECTRUM**

PCAR Program Description

Unlike trauma programs targeted at prehospital or emergency care providers, the Pediatric Care After Resuscitation (PCAR) course was explicitly designed for bedside professionals who care for injured kids in critical care, perioperative, acute care, and rehabilitation settings.

PCAR gives inpatient staff members the essential knowledge and clinical reasoning skills to meet ACS and regulatory agency requirements and provide excellent care to this challenging patient population.

Trauma Trained & Trauma Ready

With PCAR online, education is available on demand, anytime, anywhere, in a self-contained, interactive format.

- Start training employees immediately
- Purchase “seats” then assign them to learners for up to 2 years
- Reduce overall training costs, as compared to onsite courses
- Take advantage of substantial bulk discounts
- Eliminate classroom and contracting hassles
- Accommodate employees on all shifts
- Set deadlines, track progress, see test scores, and download certificates from your computer
- Automatically send progress reminders to your learners
- PCAR verification is current for 4 years.

Course enrollment includes a full-color, downloadable pdf manual. Learners have 1-year access to all course materials.

TRAUMA CARE DOESN'T STOP AT THE ED DOORS. WHY SHOULD TRAUMA EDUCATION?

- Fluid Management
- Delayed Injury Presentation
- Sepsis & Organ Failure
- Compartment Syndrome
- Mobilization
- Rhabdomyolysis
- Pain Management
- Age-related issues
- Nutrition
- Intra-abdominal Hypertension
- Late Complications
- Wound & Skin Care
- Non-Accidental Trauma
- Post-Traumatic Stress
- Organ & Tissue Donation

TCAR
EDUCATION PROGRAMS

OFFICE HOURS:

Monday – Friday: 7:00 am – 5:00 pm US Pacific Time

PCAR Program Overview

PCAR is divided into 8 modules consisting of 75 bite-sized segments with over 700 interactions to reinforce learning. The PCAR course begins by focusing on concepts relevant to the nursing care of all injured, hospitalized children and adolescents:

- The trauma care spectrum
- The biomechanics of trauma
- The body's response to injury

Learners practice applying these concepts as they progress through case scenarios that cover the injury-to-discharge care of children with trauma to specific body regions. Cases include the surgical, medical, and nursing management of kids with:

- Thoracic trauma
- Abdominal trauma
- Musculoskeletal trauma
- Head trauma
- Spine & spinal cord trauma
